**Stories and Story-telling: Your Help is Needed!**

It was great to see so many members and colleagues in Boston for the ICMA Conference - and for those who weren't there, you were missed! A continuing theme within the profession, and it is a prime part of the "Life, Well Run" initiative, is our story-telling as professional local government managers. **Alternative Delivery of Utility Services & Financing Webinar, October 17**

Local governments are constantly evaluating service delivery at every level.

With the great recession of the 21st century, there is an expectation that city and county managers will ensure constant review of best practices in all departments with the goal of "improving what doesn't appear broke". Historically, enterprise fund operations have received less scrutiny due to their "pay for themselves" financing arrangement. This FCCMA webinar examines alternative delivery for one of the largest and critically important local services that most often falls under this enterprise fund review process; alternative delivery and financing of utility services. The presenters for this webinar represent private sector companies who have experience in offering and managing alternative delivery options. This is a must attend session for

managers and their utility directors. It's a great opportunity to have real time interaction with these professionals and to ask questions that you need to be prepared to answer during important budget workshops. ([Read more](#))

Green ICMA Student Chapter at the University of South Florida in honor of Bobby Green's dedication to the advancement of students' awareness of the value of public service and benefits of pursuing careers in local government. "Bobby Green exemplifies the type of dedication to public service that we want in our MPA alumni. I believe no one is more deserving of this honor than Bobby Green.
