

**Florida City and County Management Assoc.
2025 Conference Presentation Application
Share your success story
Orlando - May 29 or 30, 2025**

The FCCMA Annual Conference historically brings together 300 city and county managers, assistant/deputy managers and department heads for three and a half days of training and networking.

Up to four case studies with corporate and government co-presenters are included in the conference programming. **Companies are invited to apply to conduct one of those sessions.** We ask for a one-page application (details on next page). Once you submit, we'll schedule a discussion to learn more about your program or project.

What we look for:

- Government co-presenters are required.
They do not need to be from Florida and are not limited to city or county governments.
- Sessions which are engaging.
- Government attendees will leave the session with an actionable item or new learning to consider for their jurisdiction.
- All topics are welcome. New ideas, new takes or improved processes on meeting goals/priorities or addressing challenges are preferred. Streamlined something? Using technology differently? Engaging citizens? Helping manage staff or the elected body? Addressing a state/federal requirement? Tell us about it.
- Sessions cannot be a sales pitch.

How sessions work:

- Up to three concurrent sessions occur during each time block.
- Those blocks will occur on either Thursday, May 29 or Friday, May 30.
- Each session will be one hour and fifteen minutes (including Q&A).
- A/V including internet, projector, screen, computer, microphones, speakers and general room set-up is provided by FCCMA.

Rules:

- Aside from A/V, participating companies are responsible for all costs associated with their presentation. (Travel, housing, etc.)
- Selected companies are required to become a \$5,000 Solution Session Sponsor which includes one full conference registration.
- Selection at the sole discretion of FCCMA.

**Submittals must be returned no later than Friday, January 10, 2025
